Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/821,511	Applicant(s) RUBANG, GONZALO R.	
	Examiner David M. Fenstermacher	Art Unit 3682	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is NOT final.

Information Disclosure Statement

2. The IDS(s), filed 9/21/07, has/have been considered in full.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 8-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Moore (5,316,386).

Moore shows the claimed subject matter where the a receptacle R1 is placed under a vehicle with the central pocket 15 being substantially below the drain plug of the vehicle. The drain plug would be removed and fluids drained into the pocket 15. If any fluid drains onto the sides 11 and 12, it would gravitate along the inclined surfaces of the sides 11 and 12 toward the central pocket 15. After draining is completed, the receptacle R1 would be removed from under the vehicle, the receptacle would be sealingly closed by engagement of the sealing elements 17 and 18 and the receptacle R1 and its fluid contents would be carried by the handles 31 and 32 to a point of

Art Unit: 3682

collection or other disposal. The drain hole 35 would be opened allowing fluids to drain therefrom. Then the drain hole would be closed. Any residual fluid would be sealed within the receptacle R1 for storage. The receptacle R1 would be stored in a flat position, such as FIG. 9, or folded as desired.

Response to Arguments

5. Applicant's arguments with respect to claims 1-5, and 8-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
